Server's Advantage™ Tray Stands

- Straps are on the lower legs instead of the top, giving servers unobstructed access which makes lifting and placing trays faster and easier.
- Protective, non-slip rubber on top of units provide traction to prevent trays from tipping or sliding.
- Support bars attached to lower legs offer maximum stability.
- Sturdy washable webbing secured to lower bars help keep unit sturdy while holding the heaviest loads and provides extra storage.
- The XT model is a 36" model.
Cubic Feet: 7.01 & Ship Weight: 33.4 lbs.

Heritage Series™ Turned Leg Tray Stand

Expert craftsmanship, superior quality, and attention to detail ensures these Turned Leg Tray Stands will compliment the most elegant setting.

- Steel bearing pivot leg joint and O-rings between connecting leg parts ensure smooth opening and closure, and assure long lasting use.
- Heavy duty rubber O-rings prevent serving trays from sliding.
- Heavy duty rubber feet securely attached to units prevent wear, as well as protect.
- Durable, washable black webbing is standard.
