### Universal Storage Solutions™ Low Cost Heavy Duty Shelving

**Constructed of injected polypropylene that is impervious to most acids and chemicals and withstands a wide range of temperatures. Cleaning is easy with good abrasion resistance.**

- Shelf capacity ranges from 100 to 150 lbs. per shelf. More than adequate for most applications.
- Quick and easy assembly requires no tools.
- Design includes wall mounting holes or brackets for increased stability.
- Raised side and back ledge secure goods from sliding off.
- Smooth shelf surface won't snag fabrics.
- Level shelf surface securely stores small items.
- Solid shelf edges can easily be labeled to help keep stored goods organized.
- Only available in Grey.
- Fixed spaces between shelves provide good cubic storage space.
