### **Important Information on Ex-Cell Kaiser, LLC REACH Compliance**

On July 7, 2017, the European Commission updated regulations (EC 1907/2006) that cover the Registration, Evaluation, and Authorization of Chemicals (REACH). The aim of REACH is to improve the protection of human health and the environment through the better and earlier identification of the intrinsic properties of chemical substances.

Based on the information currently available, the products Ex-Cell Kaiser LLC (Ex-Cell Kaiser) provides to your company meet the REACH criteria for an “Article”, as opposed to a “Substance” or “Preparation”. Articles are exempt from the REACH requirements if (a) the Article does not contain a substance of very high concern (SVHC) or candidate substance in an amount exceeding 0.1% weight by weight, and (b) if substances present in the Article in excess of 1 ton per year per importer are not expected nor intended to be released.

Neither of these conditions applies to products or similar Articles sold by Ex-Cell Kaiser, based on the information provided to Ex-Cell Kaiser from its suppliers. Accordingly, we foresee no registration or pre-registration requirement for the products we supply to our customers.

While our products do not currently fall within the scope of REACH’s registration requirement, we continue to monitor the development of new EU regulations that may require further review of our products and/or manufacturing techniques.

Thank you for your continued support.
