2020 CATALOG

WASTE & RECYCLING | HOSPITALITY | FACILITY MAINTENANCE | CUSTOM INNOVATIONS

It's an exciting time at Ex-Cell Kaiser as we set the pace, respond to market needs and listen to our customers!

We re-branded Ex-Cell, launched the new www.ex-cell.com with our unique 3D product personalizer, our products are listed on www.CADdetails.com and we brought new products to the marketplace, many with custom laser graphics.

The Ex-Cell Kaiser advantage, what you can expect:

- ✓ Exceptional Service and Quality
- ✓ Unbeatable Delivery
- ✓ Products are Sustainably Made in the USA
- ✓ Innovative Solutions

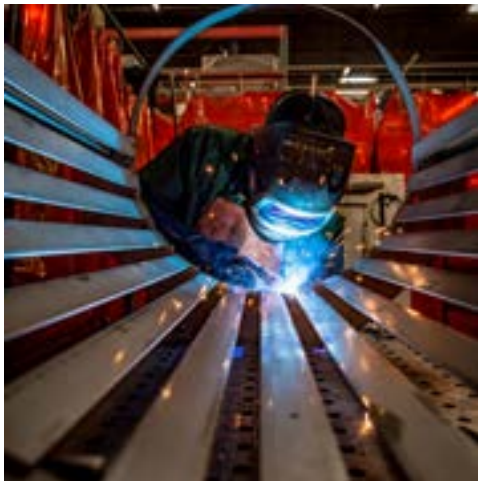

See for yourself what makes Ex-Cell Kaiser different. Our experienced team is committed to providing highly functional, thoughtfully designed products and systems our customers have come to expect, helping you get that competitive advantage by opening up a whole new world of customization and branding.

Our enthusiastic Ex-Cell Team is ready to help solve your biggest challenges with superior quality steel waste and recycling receptacles.

The Ex-Cell Kaiser Advantage

UNBEATABLE DELIVERY

We have the quickest ship times in the industry on EVERY SINGLE PRODUCT: average 10 days or less! Compare any competitor and we come out on top.

START TO FINISH

Designed and manufactured in the heartland of America. All of our products are sustainably made in the USA with 86% locally sourced materials.

FAMILY OWNED VALUES

We know how to listen to our customers and monitor the marketplace to create new products that meet our customers changing needs.

SUSTAINABILITY

All of our receptacles are made with a MINIMUM of 30% recycled materials and are 100% post-consumer recyclable, meaning they will NEVER end up in a landfill.

BRANDED SOLUTIONS

Cost-effectively enhance the strength of your own brand by custom imprinting your logo on almost all of our products!

WOMAN OWNED

Ex-Cell Kaiser is a certified Women's Business Enterprise (WBE) operated by Janet Kaiser, third-generation owner.

Nature Series

NEW

Inspired by nature, the new Nature Series combines laser patterns with LEAVES or BAMBOO STALKS – no decals – with the functionality of our popular Landscape Series. For added unique quality, each unit includes a color-coordinated rigid plastic liner.

Functional 33 gallon capacity makes the unit ideal for municipalities, parks, university campuses, streetscapes and more. Featuring either TRASH or RECYCLE with corresponding universal icons laser cut into the body of the receptacles makes waste stream identification simple.

Each unit includes in-ground mounting and B-1022 pole mounting kits
Details available on ex-cell.com

Liquids Disposal

NEW

Matching TRASH & RECYCLE units also available

Ex-Cell Kaiser's Liquids Disposal unit allows for safe and mess-free disposal of up to 10 gallons of liquids. With a clear visual message, it is easily placed in convenient locations prior to the point of entry into airport security/screening areas, stadiums, theaters, concert halls and other areas where outside liquids and beverages are not permitted.

The large capacity sink includes a 1.5" drain featuring a snap-in screen to prevent debris from entering the retention tank. An easy view, 1.5" x 14", window allows for monitoring liquid levels.

Coliseum

The Coliseum recycling station epitomizes the beautiful exchange between form and function by providing customers with an attractive and utilitarian receptacle that marries the smooth laser cut stainless steel front panel and industrial hardware elements with modern lines and durable powder coat finish options for the body.

Functional 68 gallon capacity (2 - 34 gallon liners) makes this unit ideal for high traffic areas. Two 12" color coordinated square openings on a hinged lid with soft close shocks and ghosted universal TRASH and RECYCLING graphics make waste stream identification simple.

Bring your Projects to Life

A virtual bridge between product manufacturers and professional designers, CADdetails' mission is to help bring design projects to life by connecting the AEC industry with high-quality CAD drawings, 3D models, BIM files, specifications, images, and related documents from reputable manufacturers across the continent.

All receptacles manufactured by Ex-Cell Kaiser can be found on the CADdetails website at <https://bit.ly/37kfPJc>

Branded Solutions

Ex-Cell understands what it takes to build your brand. Our focus is to help you promote. That's why we devote the time and effort to pinpoint and resolve any and all of your existing aesthetic issues, provide you with a line of products that enhance your site, and promote your brand with innovative recycling and trash solutions.

Ex-Cell Kaiser is able to offer an unparalleled level of personalization on nearly all of our products:

- Custom colors: choose from our library of 30+ colors or use your own RAL/PMS colors
- Custom graphics: including decals and vinyl wraps
- Custom laser graphics
- Custom logos & branding
- Small batch quantities

Online Product Personalizer

Introducing our NEW high-tech, 3D online personalization tool. The Product Personalizer goes beyond anything available in the waste and recycling receptacle industry. Users will be able to build their receptacle from the ground up, choosing from our broad library of powder coat finishes or using their own PMS/RAL color, wide array of decals, and multiple lid options. In addition, users will also be able to upload their own logo and graphics, and see a real-time rendering of their design in a three dimensional setting.

How to use the Personalizer

- Step 1: Select the Collection
- Step 2: Select your Receptacle
- Step 3: Select the body color
- Step 4: Select the lid opening & lid color
- Step 5: Select the decal & decal color
- Step 6: Add your own Graphics and/or Verbiage
- Step 7: Select your background
- Step 8: Submit your design for a FREE quote!

Kaleidoscope Collection

Like a real Kaleidoscope, the extensive and diverse collection of options in these recyclers offer consumers the ability to establish their Recycling Centers in a variety of colors and patterns to meet their needs. Over 30 decals available.

The Kaleidoscope Collection features fingerprint proof textured bodies and easy-to-read, pre-applied white decals on 2 sides. The lids are removable for easy serviceability and come in 2 waste stream openings.

XL Only

Black Tie Series

With a combination of premium finishes and ultra-modern, cool grey graphics, the Black Tie Series expands the reach of the Kaleidoscope collection to facilities desiring a high-end look; facilities where only the best will do.

This completely modular system allows for expansion or retraction as facility needs change and new recycling streams may be identified. The Platinum powder coated lids are removable for easy serviceability and come in 2 waste stream openings.

Metro Collection

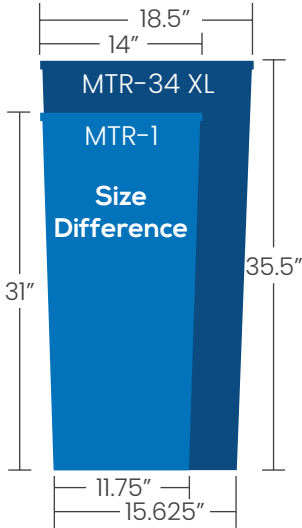

The Metro Collection provides a high end look without a high end price. A truly self contained receptacle system, the Metro provides sleek and stylish single, double or triple stream recycling with ample 18 gallon capacity per stream.

The Metro XL Collection further enhances the offering with 1 or 2 stream units of almost identical capacity, but a slightly smaller footprint. These varying capacities and streams allow a consistent look across the diverse needs of any facility.

Venue Collection

The Venue Collection of perforated stainless steel receptacles include 33 gallon capacity TRASH, RECYCLE, and COMPOST units with laser graphics instead of decals, lids with 8" round openings that have color coordinated liners, and wrap-around rubber gaskets on the base.

The perforated stainless steel VC-2234 HR units are among the largest capacity half-round units on the market at 20 gallon capacity. The hinged lids are available in black or platinum textured finishes. Units also include rigid plastic liners.

International Collection

The International Collection is a series of 18 gallon capacity color coordinated receptacles available in powder coated steel or stainless/powder coated versions to compliment any public space. All units feature a decorative double beaded base with wrap-around vinyl trim on the base to protect both the units and floor surfaces.

Celebrating over 87 years of manufacturing in Chicago!
You can count on us to deliver quality solutions at competitive prices.

International Recycling Collection

The Smiley combines 3 waste streams into a single unit with 3 separate LLDPE plastic liners. Lid features silk screened decals on openings.

The RC-1528-3 SS NY combines all the features of the traditional Smiley with color coordinated lid graphics that satisfy NYC Commercial Recycling Laws.

The Stainless Steel Recycler contains an 18 gallon capacity round liner. The body is brushed Stainless Steel with a fingerprint-proof textured café style dome lid with 6" opening. A black decal kit is included for Paper, Cans, Plastic, and Glass.

Root Item Number	Dimensions	Gallons	Weight (lbs)	Lid Decals/Color Options
RC-1528-3 SS	15" D x 28" H	14	41	CANS, PLASTIC, NEWSPAPER/PAPER
RC-1528-3 NY SS	15" D x 28" H	14	41	METAL/PLASTIC/GLASS, TRASH, PAPER

Celebrity Recycler

The Celebrity Recycler features a brushed Stainless Steel body with a large capacity liner that encourages recycling in high traffic areas with easy-to-read graphics and a fingerprint-proof Recycle Blue textured lid.

Root Item Number	Dimensions	Gallons	Weight (lbs)	Standard Lid Opening
RC-2234F SS	22" D x 34" H	45	64	Funnel with 12" opening

Premier Series

The Premier Series is a 33 gallon capacity unit with a round liner. This popular unit is available in 6 standard colors and has a brushed stainless steel funnel top with 8" diameter waste opening. Heavy duty feet protect unit and floor surfaces.

Root Item Number	Dimensions	Gallons	Weight (lbs)	Standard Body & Lid Colors
WR-33F	18.25" D x 32" H	33	56	Stainless Steel or Powder Coated Body with Stainless Steel Lid
WR-2234F	22" D x 25" H	45	64	Stainless Steel Body with Powder Coated Lid

The Premier XL is a similar, yet larger, version of the Premier with a 45 gallon capacity round liner. The body is brushed stainless steel and features a fingerprint-proof textured funnel lid with 12" waste opening. Heavy duty feet protect unit and floor surfaces.

Sanitizing Wipe Receptacles

This stainless steel unit compliments any environment with an elegant design and easy dispensing of sanitary wipes. Compatible with most center-pull bagged wipe rolls up to 9.5" in diameter, the locking flat top lid lifts off easily for refilling wipes. The unit also features a 5" diameter trash opening on side of the body for disposing of wipes.

Perfect as a stand-alone receptacle for towels or as a companion for our Sanitizing Wipe Dispenser, this 18 gallon unit helps keep towel service neat and manageable. The unit features an attractive stainless steel body with a lift-off, flat lid with 8" opening.

Item Number	Dimensions	Gallons	Weight (lbs)
SW-DSP-01 SS	10" D x 28" H	3	11
SW-1528 TWL	15" D x 28" H	18	30

Lid Opening contains a rubber grommet with teeth to help wipes stand up and tear easily.

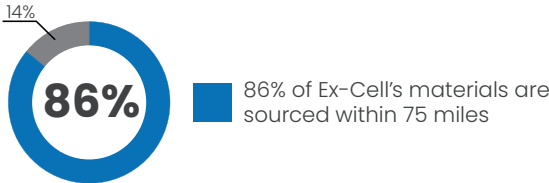

Commitment to Sustainability

At Ex-Cell Kaiser, we’re committed to protecting the environment and natural resources. Every day we look for new ways to leave a positive environmental footprint, through our own day to day business operations and through our products and manufacturing process.

Our internal efforts include the implementation of company-wide recycling procedures and initiatives, the separation of recyclable waste, timed production processes to reduce energy consumption and the purchase and usage of green cleaning products and products made of recycled materials.

Material Used in our Products	% Recycled Content	% Post Life Recyclability	Locally Sourced
Cold Rolled Steel	30%	100%	Yes
Stainless Steel	60%	100%	Yes
Aluminum	70%	100%	Yes
Powder Paint*	0%	0%	Yes
Vinyl Decal	0%	0%	Yes
Packaging	40-50%	100%	Yes

*Powder Coat Finish contains no volatile organic compounds and overspray is 98% reclaimable

All Receptacles Manufactured by Ex-Cell Kaiser Contribute to Closed-Loop Recycling!

METALS

Metals can be recycled an infinite number of times, therefore never contribute to landfill waste .

PLASTICS

Plastic can only be recycled once or twice before being cycled down due to degradation of material.

A “one-and-done” type of material that goes into landfills at the end of its service life.

Ellipse Collection

At a total capacity of 90 gallons (two 45 gallon liners), the Ellipse Collection is a two stream station ideal for high volume & traffic applications. Locking front doors make serviceability effortless and prevents unauthorized access. Crisp, white decals on the doors make waste stream identification easy. Durable aluminum canopy helps prevent rain and elements from entering the unit. Additional etched & filled aluminum plates denoting TRASH and RECYCLABLES are included for lid application, as an option.

Root Item Number	Dimensions (LxWxH)	Gallons	Weight (lbs)	Lid Opening Sizes
RGU-3645	48.5" x 27.5" x 52"	90	200	8" for Recyclables and 12" for Trash

OVER 30% 

Streetscape Collection

Timeless, elegant design and extremely rugged construction combine to make this one of our most popular outdoor collections. The capacity, design and features of the Streetscapes perfectly meet the specific needs of our customers.

The Streetscape is available in a Classic 37-gallon flared design or an SCTP-40 45-gallon with or without a self-locking door. All of these models are also available with a full canopy.

Root Item Number	Dimensions	Gallons	Weight (lbs)	Description

No one in the industry can beat our lead times - almost all of our products ship in 10 days or less!

Landscape Series

The Landscape Series consists of an entire family of perforated outdoor units with capacities ranging from 10 gallons to 40 gallons. Units over 30 gallon capacity include pre-drilled holes in the bottom of the unit for in-ground mounting. All units, with the exception of the WR-2441 and RC-2241 that come with plastic liners, feature retainer bands to hold liner bags in place.

The RC-34R DM and WR-34R DM feature laser cut TRASH or RECYCLE graphics instead of body decals. The RC-34R DM, WR-34R DM, RC-2441, and WR-2441 also include decals on lids to help denote waste streams from all angles.

Smokers' Oasis

The Smokers' Oasis is one of the best selling cigarette receptacles in the world and has serviced thousands of facilities! The unit, constructed of all fire-safe steel, features a removable 4.5 gallon galvanized steel liner with bail handle. It will not burn or melt, unlike plastic models, and requires no sand or water. A sure-fit industrial stainless steel hasp closure secures the top to the base.

Padlock, security lanyard and in-ground anchor kit are sold separately (SRS-LCK KIT).

Root Item Number	Dimensions	Gallons	Weight (lbs)
SRS-1	16" D X 39" H	4.5	18

Cigarette Receptacles

The retro-style pedestal smoking urn has a large capacity and features a removable, self-closing flip top with stainless steel blades, making it a favorite of casinos, private clubs, and smoking lounges.

With its classic design, this large capacity, self-closing flip top, tabletop ashtray will meet the needs of most any application and is a favorite of venues where smoking is allowed. Available with optional bridge (BG), see below.
