EX-CELL KAISER

Decorative Receptacles for Waste and Recycling

STREETSCAPE COLLECTION

Enhance Your Outdoor Spaces

The Streetscape Collection takes “heavy-duty” to a whole new level. These 37-gallon to 45-gallon capacity units are constructed entirely of steel and with the option to add a rain canopy, the weather and elements won’t stand a chance!

Worried about lifting a heavy liner out of the unit to empty it? Choose a Streetscape unit with a self-locking front door that opens wide enough to remove the liner without lifting.

All construction is with 3/16” thick, 1.5“ wide steel bars, channels and leveling guides.

Each unit includes an LLDPE plastic liner with lift holes and bag retention notches. The liner base resin meets UL94 flammability standards.

MADE IN THE USA OVER 30%

FINISHES

- Black gloss (BLK)
- Hunter Green gloss (HGR)
- Coffee gloss (COF)
- Recycle Blue gloss (RBL)

Since 1933, Ex-Cell has long been a leading manufacturer of quality metal products for the Janitorial, Hospitality and MRO markets.

A hardworking, talented and dedicated team of people, we pride ourselves on our innovative work in product concepts, design and development to expand our product line and accommodate our customers' needs.

Adding to our hospitality product offerings, we utilize enhanced technologies and put our in-house resources and talents to use by creating an extensive line of fire resistant, decorative steel receptacles. Inside or outside your facility, Ex-Cell offers one of the widest selections of Made in the USA receptacle collections on the market today.

As a company, we are consciously doing our part to help corporate facilities reach their sustainability goals by offering fire resistant, steel receptacles for their recycling programs. Through our distribution network and organizations such as Keep America Beautiful, Ex-Cell Kaiser receptacles are proven to be a strong tool in the recycling efforts of facilities such as Staples Center, Pepsi Center, Georgia World Congress, numerous corporate facilities, municipalities, schools and universities in their success for achieving their sustainability goals.

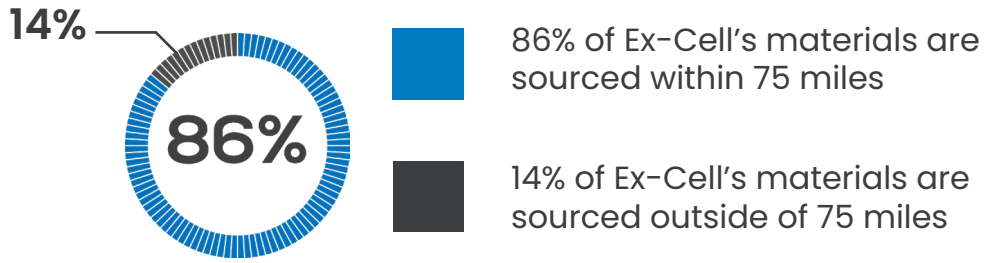

Ex-Cell recognizes the importance of building your brand and brand awareness, therefore we offer the added value of product customization with the use of colors, bold custom graphics, logos and custom designs.

Excellence always begins with Ex-Cell!

Our Commitment to Sustainability

Material Used in Our Products	% Recycled Content	% Post Life Recyclability	Locally Sourced

*Powder-Coat Paint Finishes contain no volatile organic compounds and its over-spray is 98% reclaimable

- All packaging for Ex-Cell products contains between 40-50% recycled material content.
- Powder-Coat Paint Finishes contain no volatile organic compounds and over-spray is 98% reclaimable
- All Ex-Cell steel products contain over 30% recycled steel
- All Ex-Cell aluminum products contain over 70% recycled aluminum
- All Ex-Cell stainless steel products contain over 60% recycled stainless steel
- All Ex-Cell steel, aluminum, and stainless steel products are 100% post-consumer recyclable

As a result of our commitment to continuous improvements, occasionally minor changes may be made to our products without advance notice. Such changes are minor and have no effect on the form, fit and function of a product but may result in a minor cosmetic difference. Ex-Cell Kaiser will never mix any products that may have modifications within a single order. Our website will always reflect the most current product image.
